Medical graduates/Post-Graduates

3158. SHRI SWARAJ KAUSHAL : Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) the number of medical graduates/post-graduates passed out from medical colleges/institutes in the country during the last three years;

(b) the average expense incurred on educating a medical graduate and a post-graduate;

(c) how many of these doctors leave the country each year and the net loss caused to the country on that account; and

(d) the steps Government have taken to stop the intellectual exodus ?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRI A. RAJA) : (a) Information is given in the Statement enclosed (*See* below).

(b) There is no uniformity in expenditure incurred on medical education per student at under-graduate and post-graduate levels as the figure varies from State to State. As per a study commissioned by the Medical Council of India in 1998, the average cost of medical education per student in a Government Medical College is about Rs. 3.15 lakh per annum at under-graduate level during the period 1994-95 to 1996-97. As per an earlier report of 1994, the cost of medical education per post-graduate student ranges from Rs. 71,000/- to Rs. 1.46 lakhs per annum in Government Medical Colleges.

(c) and (d) Such data are not maintained by the Government as the Emigration Act provide that, among others, doctors are not required to obtain any clearance from the office of the Protector of Emigrants before seeking employment abroad.
